

Discovering Indigenous Lands: The Doctrine of Discovery in the English Colonies

Robert J. Miller, Professor, Lewis & Clark Law School; **Jacinta Ruru**, Senior Law Lecturer, University of Otago; **Larissa Behrendt**, Professor of Law and Director of Research, University of Technology; **Tracey Lindberg**, Professor of Law, University of Ottawa and Athabasca University

This book presents new material and shines fresh light on the under-explored historical and legal evidence about the use of the doctrine of discovery in Australia, Canada, New Zealand and the United States.

North America, New Zealand and Australia were colonized by England under an international legal principle that is known today as the doctrine of discovery. When Europeans set out to explore and exploit new lands in the fifteenth through to the twentieth centuries, they justified their sovereign and property claims over these territories and the indigenous peoples with the discovery doctrine. This legal principle was justified by religious and ethnocentric ideas of European and Christian superiority over the other cultures, religions, and races of the world. The doctrine provided that newly-arrived Europeans automatically acquired property rights in the lands of indigenous peoples and gained political and commercial rights over the inhabitants. The English colonial governments and colonists in North America, New Zealand and Australia all utilized this doctrine, and still use it today to assert legal rights to indigenous lands and to assert control over indigenous peoples.

Written by indigenous legal academics - an American Indian from the Eastern Shawnee Tribe, a New Zealand Maori (Ngati Rawkawa and Ngai Te Rangi), an Indigenous Australian, and a Cree (Neheiywak) in the country now known as Canada, *Discovering Indigenous Lands* provides a unique insight into the insidious historical and contemporary application of the doctrine of discovery.
