Appellate Court Brief

8-29-2014

Elizabeth Tremblay seeking damages that have occurred from this situation, which is \$65,000,000.00.

on December 12, 2010, Mohegan Tribal Gaming Authority, discharged myself for being rude to a customer, which never happened. I am not a person who is rude to anyone. I like to help people and animals alike, and have many friends.

Before this happened, I was informed by another person, that a person who pointed out a month earlier, was trying to get her position back. There were no openings, so they made the opening by terminating me. She was back to work within a couple days. This is discrimination. The same person was unhappy what they did and pointed out again.

CT State Unemployment agreed, they had other reasons for termination. I have this information in writing.

There was a Supervisor named Theo Rubin, who was always harassing me. I was on

break when he wrote me up twice. The reason they do this is because they find a way not to give a person a raise or with enough points of writeups against a person can also lead to determination.

my rights have been violated, and I am sure am not the only one this has happened to.

Because they are Sovereign, does not give them the right to treat people the way they do. This is a form of discrimination.

To conclude, I was wrongly accused of being rude to a customer. Mithegan Sun re-hired the other person back, on the same shift.

Mithegan Sun has caused much damage for their fun and games which includes: loss of home, loss of job which never was replaced due to the economy, harmed my credit, also they are blamed for a stroke from all this stress. I have Tremors due to nerve damage.

Appellate Court Brief Continued.

All this has happened and relief from the court should be granted, for all the pain and misery they caused me, in the amount of \$65,000,000.00.

No one should have to go through what I have been through.
